Subject: FW: setting up meeting or conference call with epa, navy, dtsc about shipyard environmental studies
Greenaction technical meeting request.docx

Dear Derek & Nina,

Below is email from Bradley with more details. In addition, attached is a Word file that has the previous emails from each of you about schedules and also questions Nina & I have received from UC Santa Cruz-affiliated people. I will ask Bradley for more specifics re topics, but the emails attached are a likely indication.

In the mean time, Derek, it sounds like the next time you will be in town will be the week of March 7. So would Tues 3/8 and Thurs 3/10 at 4 pm be possibilities? Or if they want it earlier, would Danielle be in town sooner than that?

Also, Nina has gotten a rad question. Would it be possible to get a RASO staff person to join by phone?

- Lily

Hi Lily,
Thanks for offering to coordinate setting up a phone or in person meeting with EPA, Navy and DTSC (any other agencies?) to discuss the studies done on the shipyard and development.
Tuesdays and Thursdays around 4 pm are the best.
Let us know.
Participating with us would be our technical advisers from UCSC, and would probably invite a couple of other folks such as Anthony Khalil from LEJ and Ray Tompkins.

Bradley
